Ditch That Textbook Matt Miller 2015-04-13 Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting "by the textbook" implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In Ditch That Textbook, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. Ditch That Textbook is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.

Through the Looking-Glass
Lewis Carroll 2007-12-31 When you look at fine connections, it's hard to say exactly what relation "Alice in Wonderland" has to this book, "Through the Looking-Glass," Oh, it's plainly the same girl, though she seems older, here, and some characters (like Tweedledum and Tweedledee) appear in both. But she doesn't get there the same way, and doesn't refer to her adventures in Wonderland so much as once. Oh well: maybe it's all a dream and she can't remember the last one -- or maybe the magic through the Looking-Glass has hold of her, just as it has hold of Humpty Dumpty, or the Walrus and the Carpenter.

How to Write a Good Scientific Paper DRIS A. MACK 2018
Many scientists and engineers consider themselves poor writers or find the writing process difficult. The good news is that you do not have to be a talented writer to produce a good scientific paper, but you do have to be a careful writer. In particular, writing for a peer-reviewed scientific or engineering journal requires learning and executing a specific formula for presenting scientific work. This book is all about teaching the style and conventions of writing for a peer-reviewed scientific journal. From structure to style, titles to tables, abstracts to author lists, this book gives practical advice about the process of writing a paper and getting it published.

Successful Lab Reports  Christopher S. Lobban 1992-02-28 Science students are expected to produce lab reports, but are rarely adequately instructed on how to write them. Aimed at undergraduate students, Successful Lab Reports bridges the gap between the many books about writing term papers and the advanced books about writing papers for publication in scientific journals, neither of which gives much information on writing science lab reports. The first part guides students through the structure as they write a first draft. The second part shows how to revise the report and polish science writing skills as the student continues to write science lab reports.
