Religion and Politics in the Post-Communist Continent (Laura Gran 2013-10-10) In the post-communist era it has become evident that the emerging democracies in Eastern Europe will be determined by many factors, some of them new. Through the region, the Orthodox, Roman Catholic, and Greek Catholic churches have tried to win their voices as democracy through direct political engagement. Moreover, that churches can bring about important changes in society by their religious beliefs and rituals. This book examines the role of religion in the post-communist era, considering its historical and political implications. The book illustrates that the church is a major political force that can be both a source of stability and a source of conflict. The book concludes that the church is a major political force that can be both a source of stability and a source of conflict.

To the Deity Beyond the Aisle: A Computation of Suprareligious Consistencies (Peter C. Hodgson 2018-09-17) This book provides a new computational approach to the study of religion, which allows for a comprehensive and nuanced understanding of religious phenomena.
